

I'm not robot!

An income statement. Corporation C2, On 2 December 2015 ASI acquires \$ 100 of title from one of its shareholders. The stock will be held by the company as a treasury stock. The effect of the accounting equation is: the transactions of 1 and 2 December were each on sale, even the sum of both transactions should be in balance: the total indicate that the ASI has \$ 9,900 and The source of these activities is the shareholders. The accounting equation also shows that the company has \$ 9,900 activities and the only complaint against these resources is the complaint of the shareholders. The financial statements of 2 December communicates the financial position of the company at midnight on 2 December: the purchase of a company of a company never led to an amount to be reported in the income statement. Accounting equation for a company: C3 *C4 Transaction C3 transactions. On 3 December 2015 ASI spends \$ 5,000 in cash for the purchase of IT equipment for use in the sector. The effect of this transaction on its accounting equation is: The accounting equation indicates that an activity increases and an activity decreases. The amount of the increase is equal to the amount of the decrease, the accounting equation remains in balance. This transaction is recorded in equipment and in cash of the accounts of the activities. The account increases by \$ 5,000 and the account \$5,000. The diary item for this transaction transactionThe effect on the accounting equation of the first three transactions is: the totals tell us that the company has \$ 9,900 activities and the source of such activities is the shareholders. Totals tell us that the company has assets of \$ 9,900 and that the only claim against these assets is the claim of shareholders. The financial statements dated 3 December 2015 reflects the company's financial position starting from midnight on December 3: the purchase of equipment is not an immediate expense. Become amortization expenses only after the equipment is put in service. We will assume that the equipment has not been put into service from 3 December. Therefore, there is no spending in this transaction or in previous transactions to be reported on the income account. Corporation Transaction C4. On 4 December 2015 ASI obtained \$ 7,000 by borrowing money from his bank. The effect of this transaction on the accounting equation is: as you can see, ACI increases the activities and its \$ 7,000 passivity. This transaction is recorded in the Cash property account and in the Notes Payable responsibility account with the following item of the magazine: to see the effect on the accounting equation from the first four transactions, click here: these total indicate that the transactions through December 4 are in \$ 16,900 activities. There are two sources for these assets: creditors have provided \$ 7,000 of goods, and shareholders provided \$ 9,900. It is also possible to interpret the accounting equation to say that the company has assets of \$ 16,900 and the creditors have a claim of \$ 7,000. The residue or the rest of \$ 9,900 is the complaint of the shareholders. The financial statements of 4 December reports the company's financial position starting from that date: the reception of money from the bank loan did not enter since ASI did not earn the money by providing services, investing, etc. Consequently, there is no income effect from this gntlnusnoc smrofrep ISA 5102. 6 rebmeceD n0 .6C noitcasnarT noitarproC .tnemetats emocni sÁÁÁenoitarproC eht no drotpor ton si esnepxe xat emocni .noitarproC S repahcbeU s a si .cni .secrivS gntnuocCA taht emussa ew esuaceB :ereh detneserp si rebmeceD fo syad evif tsrif eht rof tnehetats emocni sÁÁÁenoitarproC eHT .tnemetats emocni sÁÁÁeISA tceffa liw ti .esnepxe na selovni noitcasnart siht ecniS .ytiuqe ÁÁÁesredlohkcots dna sgninrae deniater ni egnahc Eht FO Trap tnatrop we naáááéásnoitarepo fo stluser eht sidvorp of .steehs ecnalah neewteb kni a t)doirep emit deflre rof sessol dna .sniag .sessulah 1h Eht** :ereh detneserp 5102 .5 rebmeceD fo fo sa teehs ecnalah eht .003.9\$ fo mialc a gnivah sredlohkcots eht dna 000,7\$ fos a Gnivah Srotiv EHT .Ayaw Rehtona Deweiv .003, 9\$ dedivorp sredlohkcots eht dna 000,7\$ dedivorp srotidrec eht .003,61\$ FO s tessa sah .cni .erawtfoS gntnuocCA taht etacidni won slatot eHT :si snoitcasnart evif tsrif eht fo tceffe denibomc eHT :si noitcasnart siht rof yrtne lanruoj eHT .hsaC tnuocca tessa eht ni dna esnepxE gnsitrevdA tnuocca esnepxe eht ni droceor yllaitini si tnuoma eht .daetsni .tnuocca sgninrae deniater eht otni yltrid dedrort ton noitcasnart eht .esense fo esuaceB Sesarced Ytiuqe selovni noitcasnart eht esuaceb .ytiuqe ÁÁÁesredlohkcots ni esaerced 006\$ s si tceffe dnoces eHT .esaerced tessa sti ,006\$ gniyap si ISA ecniS :si noitauge gntnuocCA sÁÁÁenoitarproC eht no noitcasnart gnsitrevda eht fo tceffe eht .syad Tnecer of Nur Erew Taht Sda ROF 006\$ syap .erawtfos gntnuocCA 5102 .5 rebmeceD if .5c noitcasnart noitaroc 6cá anu rep elibatnoc enoizauqE :iuq otartsom :Á erbmecid 6 la erbmecid *Á 1 lad odoiroy I rep .cni .erawtfoS gntnuocCA rep ocimonoce otnoc II .itsinoiza ilged Átiuqe'lled e tunettart ilitu ilged enoizairav allied etnatropmi etrap anu - inoizarepo elled itatlusir i cesinroF .icnalib i art ontemagelloc nu *Á)jopmet id odoirep otanimreted nu rep Áiteicos allied etidrep el e ingadaug i .eseps el .ivacir i atropir ehc(ocimonoce otnoc II ** :iuq otatneserp *Á 5102 erbmecid 6 led ettonazzem a oicnalib II .002.01 \$ id oudisier o oterI li rep omalcer nu onnah ehc itsinoiza ilg e 000.7 \$ id omalcer nu onnah ehc irotidrec ious i noc 002.71 \$ id Átivitta ah ISA :odom ortla nu ni itsiv erness ehcna onossop ilatot I .itsinoiza ilgad onavinevorp 002.01 \$ ehc e irotidrec iad onavinevorp Átivitta ah Áiteicos al erbmecid 6 led enif alla ehc onocid ic ilatot I li :iuq otazziausiv erness *Aup inoizasnart ies emirp ellad elibatnoc enoizauge'llus otteffe'! .:Á otiderc lus izvires id arutinrof al rep elareng oraird led ecov al .),itunettart ilitu ilged otnoc lus otrefarsat Árrev ivacir ied itnoc ien otropmi'l ,onna'lled enif al opoD(.otnemom isaisilauq ni ocimonoce otnoc oiropor lus ivacir ied otnoc li eralanges id Áiteicos alla Ártesnoc ²Áic .etartne elled ivacir ien otartsiger *Á otangadaug otropmi'l .otsoittuIP .otnemom otseuq ni itsinoiza ilged orianoiza otnoc len etnematterid atartsiger enif non etartne id enoizasnart al .itsinoiza ilged otten oninomitrap led otnemua nu onisuaac ivacir i enebbeS .itsinoiza ilged Átiuqe'lled otnemua nu ehcna acovorp ivacir id ongadaug II .etatnemua onos Átivitta el ehc acifingis otsuig otsueU .itneilc ious iad 009 \$ erevecir id ottirid li ah e etartne otangadaug ah .izivres i otuigese ah ISA ©Áhcioip : Á elibatnoc enoizauge'llus otteffe'L .inroig 03 ni ituvod onos itropmi ilG .009 \$ id otadrocnoc otropmi'l rep itaruttaf onognev itneilc I .itneilc ious i rep nu nu azzilitu ISA 5102 erbmecid 7 II .7C 7C noitcasnarT 8C - 7C inoizasnarT Help the service for 6 hours at a cost of \$ 20 per hour. ASI immediately records the invoice, but pay the \$ 120 when it will be foreseen in 10 days. This transaction has the following effect on the accounting equation: the accounting equation shows that the ASI liabilities increase by \$ 120 and the expense causes decreased the shareholders of \$ 120. The responsibility will be registered in the due accounts and the expenses will be recorded in temporary service expenditure. The general entry of the diary for the use of the Temp service is: the effect of the first seven transactions on the accounting equation can be displayed here: the totals show us that the company has \$ 17,200 activities and the sources are creditors with \$ 7,120 and shareholders with \$ 10,080. Totals of the accounting equations also reveal that the creditors of the company have a complaint of \$ 7,120 and the shareholders have a complaint for the remaining \$ 10,080. The financial position of the ASI at midnight of 7 December 2015 is presented in the following budget.** The income statement (which reports the revenue, expenses, profits and loss of companies for a specified period of time) is a connection between budgets. Provides the results of the operations - an important part of the variation of the net assets. The income statement for the first seven days of December is shown here: Corporation Transaction C8. On 8 December 2015 ASI receives \$ 500 from customers who had invoiced on December 6th. The effect on the accounting equation is: the increase in the liquidity of the company and one of its other activities (credits) decreases. The passivities and equity of the shareholders are not interested. (They did not enter this date. The revenues were recorded when the à € -6 December were earned.) The entry of the general diary to record the increase in cash and the decrease in credits is: The effect on the accounting equation from transactions through 8 Here: the totals after the top eight transactions indicate that the company has \$ 17,200 activities. Creditors provided \$ 7,120 and the company shareholders provided \$ 10,080. The accounting equation also indicates that the creditors of the company have a complaint of \$ 7,120 and the shareholders have a residual complaint of \$ 10,080. The Budget of ASI at midnight of 8 December 2015 is shown here: ** The income statement (which reports the revenues, expenses, earnings and losses of the company) is a connection between the balance) sheets. Provides the results of the operations - an important part of the variation of the net assets. The income statement for the first eight days of ASI operations is shown here: the accounting equation expanded for a single share owner of the owner in the basic accounting equation is sometimes expanded to show the accounts that make up the owner's equity: Capital, entrances, expenses and walls of the owner. Instead of the accounting equation, activity = passivita + equity of the owner, the expanded accounting equation: the eight transactions that we had listed in the context of the transaction of basic accounting equation 6, are shown in the following expanded accounting equations: with the equation Expanded accounting, you can easily see the net income of the company: accounting equation expanded for a company, the shareholder of the shareholders of the basic accounting equation can also be expanded to show the accounts that make up the equity of shareholders: share capital, revenue , expenses, dividends and treasury actions. Instead of the accounting equation, activity = passivita + capital shareholders, the expanded accounting equation is: the eight transactions that we had listed in the context of the C8 basic accounting equation transaction are shown in the following enlarged accounting equations: with the Expanded accounting equation, you can easily see Net income: income:
